

GIULIA

A NEW ERA
A NEW PARADIGM
A NEW ALFA ROMEO

Alfa Romeo has always taken a unique and totally original approach to designing its automobiles: it is the point of convergence between design and passion, between a love for the most cutting-edge technology and a strong instinct to inspire emotions. Today Alfa Romeo is writing a new chapter in its history, introducing a future where once again the driver is at the center of the design. Here is the new Alfa Romeo Giulia.

CHANGE THE HORIZON WITH A NEW PERSPECTIVE

Simplicity, formal balance and harmonious surfaces. A unique and unmistakable appearance, represented by the trilobe. This is the Alfa Romeo style. The Giulia embodies that style. Beautiful and functional: with balanced weight distribution and rear-wheel drive, the engine and mechanics between the two axes, all its power is transferred to the road. The Giulia's surfaces are defined by light. Its profile is power and motion.

ORGANIC COMFORT

The Giulia's interior is built around the driver, but all passengers travel in comfort and safety. Simple and essential, it puts the driver at the exact center of the action. A single, invisible man-machine line gives full command and control of the information. The interior of the Giulia is striking for its combination of materials: surfaces in real wood, natural walnut or grey techno-oak. Brushed aluminum. Leather with a nappa finish. Technical fabrics. All materials are selected to be in full harmony with the personality of the Giulia and the crafted finish that only Italian Style can provide. Form, function and beauty are inseparable. An intense experience, aimed at all the senses.

HIGH PERFORMANCE MINDSET

Every detail of the Alfa Romeo Giulia was designed to achieve the best performance, also in terms of efficiency.

The engines, all of which are supercharged and made entirely from aluminium, offer an unprecedented balance of power and environmental friendliness. A super sporty feeling for the 2.0 Turbo Petrol 200 hp with Rear-Wheel-Drive combined with 8-speed automatic transmission, and 280 hp with new Q4 AWD system 8-speed automatic transmission.

Maximum efficiency for the 2.2 Turbo Diesel 160 hp and 190 hp with Rear-Wheel-Drive, available with 6-speed manual transmission or 8-speed automatic transmission, 190 hp and 210 hp with new Q4 AWD system and 8-speed automatic transmission.

TOUCH TECHNOLOGY

TURN YOUR TRIP
INTO A JOURNEY

The new Alfa™ DNA lets the Giulia vary the dynamic responses and customize them according to your driving style and travelling conditions.

d **Dynamic:** favors performance and responsiveness. The steering response is more accurate, the braking more responsive and the electronic control systems leave space for the enjoyment of a sporty drive.

n **Natural:** ideal for both city streets and highways. The dynamic behavior is geared to comfort and efficiency.

a **Advanced Efficiency:** A new mode that allows you to maximize energy savings and minimize emission levels.

The Alfa™ DNA also interacts with the Alfa™ Active Suspension (if available): the shock absorbers adapt to the desired driving style, becoming more rigid for a sporty ride, or softer, for a more comfortable drive.

A red sports car is shown on a wind tunnel test track. The car is positioned on the right side of the frame. Above the car, a person is suspended in the air, holding onto a horizontal pole. The background is a cloudy sky. The text "NO BALANCE HAS COMPROMISES" is written in large, bold, black letters across the upper middle part of the image.

NO BALANCE HAS COMPROMISES

The Giulia reaches a Cd equal to 0,25. This confirms the great commitment to aerodynamic development, and the constant and exhaustive work conducted in the wind tunnel. This research made it possible to develop and adopt the most advanced technical solutions: in particular, the streamlined design of the base that improves the airflow under the car and the aerodynamic flow management at the rear help reduce turbulence, improving dynamic efficiency.

Maximum attention to detail in every design feature gives the car its perfect balance. In fact, the rear-drive combined with the longitudinal front position of the aluminum engine and the carbon transmission shaft ensure an optimal weight distribution along the frame.

OPTIMAL WEIGHT DISTRIBUTION

TOTAL CONTROL

ALL-WHEEL DRIVE ALL-AROUND AGGRESSIVE

The most impressive performances are carried out with unwavering confidence — with a level of expertise that makes all seem effortless, mistake-proof. The innovative  AWD system brings that commanding approach to every roadway, every condition. Linked to the driver-adjustable Alfa DNA Drive Mode Selector, ever-changing surface and climate factors are diagnosed and adjusted for, within 180 milliseconds. With Q4, Giulia is able to step up its all-season traction and optimize performance by transferring up to 50 percent of its engine's torque to the front axle. It's how both car and driver can confidently begin each and every journey. The innovative AWD system with  technology is available on 2.2 Turbo Diesel 190 or 210 hp and 2.0 Turbo Petrol 280 hp.

(RWD Version)

DRIVING EXCITEMENT

SENSE THE
ALFA ROMEO GRIP

Road holding is guaranteed by the **Alfa™ Link Suspension System**, made entirely from aluminium, which ensures excellent dynamic behaviour and unique handling: at the front, the new double-wishbone system with semi-virtual steering axles keeps the wheels perfectly perpendicular to the road, even on the most challenging bends, while at the rear, the Multilink system with four and a half links is the best combination of lateral grip and comfort level, even on uneven road surfaces. Moreover, thanks to its compactness, it ensures the maximum rear passenger room.

The **Alfa™ Active Suspension System** dynamically adjusts the suspension response according to the driving conditions and the mode selected with the Alfa™ DNA selector. This technology allows a softer shock absorber setting for a more comfortable ride, or a more rigid setting for more precise sporty driving.

In addition, with the Performance Pack, you can equip the vehicle with the  limited slip differential, coupled with active suspension and aluminum steering wheel paddle shifts. The  differential optimizes traction in all driving conditions by optimally distributing the torque on the rear axle.

NATURALLY ENGINEERED
FOR MINIMUM WEIGHT

The new Giulia is designed to provide an excellent power to weight ratio thanks to the extensive use of ultra-light materials: carbon fiber for the driveshaft and aluminum for the hood, doors, engine, suspension and brake calipers. These choices translate to greater efficiency and better driving dynamics, for a considerable reduction in fuel consumption and emissions.

Automotive Circle International awarded Giulia with the most relevant prize related to body platform engineering and innovation.

INTEGRATED BRAKE SYSTEM (IBS)
LANE DEPARTURE WARNING (LDW)
BLIND SPOT MONITORING (BSM)
REAR CROSS-PATH DETECTION
ADAPTIVE CRUISE CONTROL (ACC)
FORWARD COLLISION WARNING (FCW)
AUTONOMOUS EMERGENCY BRAKE (AEB)

BORN INTUITIVE

The Giulia's safety systems employ today's most advanced technology to support intuitive driving with different levels of intervention, preventing risks and dangerous situations.

Forward Collision Warning (FCW) with Autonomous Emergency Brake (AEB) with pedestrian recognition and active braking. This device warns the driver of a potential head-on collision, using acoustic and visual signals and activating the braking system. In urban driving, at speeds below 65 km/h, it can also detect the presence of pedestrians in the car's path and stop on its own in case the driver is unable to actively intervene.

Integrated Brake System (IBS). The new Alfa Romeo Giulia is the first sedan in its segment to be equipped with this innovative electromechanical device, which combines the functions of the brake system with those of stability control. With the highly sensitive brake pedal, the system eliminates any vibration in the case of ABS braking. It responds powerfully and rapidly, and can stop the car from 100 to 0 km/h in a space of just 38.5 meters.

Lane Departure Warning (LDW). A video sensor installed on the windscreen recognizes the road surface markings and alerts the driver with audio and visual warnings, if the driver moves out of the lane involuntarily or fails to use turn signals.

Blind Spot Monitoring (BSM). The system continuously monitors the rear blind spots on both sides of the vehicle, using two radars set in the rear bumper.

Rear Cross-Path Detection monitors the area behind the car during reversing maneuvers. The device signals the approach of other vehicles at a right angle to the car and at speeds lower than about 35 km/h.

Adaptive Cruise Control (ACC)* Active Cruise Control actively assists the driver in keeping a safe distance from another the vehicle, maintaining the set speed and automatically adapting it to traffic. The Stop&Go function (available on AT versions) can bring the vehicle to a standstill and resume automatically as the preceding vehicle restarts within 2 seconds or over the driver demand.

5 Stars Euro NCAP rating Alfa Romeo Giulia achieved the top result in 2016 EuroNCAP tests thanks to excellent active and passive safety features.

THE GRAVITY OF SOUND

STUNNING ACOUSTICS

harman/kardon
by HARMAN

The perfection of the Sound Theatre by Harman Kardon® exalts the sensations you feel behind the wheel of the Giulia. 900 W of power, 14 speakers (including subwoofer), 12-channel amplifier and Logic 7® technology. An exciting digital surround sound effect, full of depth and detail. In the Giulia, sound becomes almost material.

Alberto Di Fabio
Tiziana, 2014

A HUMAN-MACHINE SYMBIOSIS

CLEVER INFOTAINMENT

The connection between the Giulia and its driver has no boundaries. Thanks to the on-board technology: the next-generation infotainment system with Rotary Pad command, DAB radio, Alfa™ Connect 3D Nav with three-dimensional high-resolution maps, the 8.8" central display and 7" TFT screen included in the on-board instruments.

INTELLIGENT MULTIMEDIA

MEDIA ENTERTAINMENT

Maximum connectivity with a full range of devices. Using the USB/AUX ports and Bluetooth connection, you can listen to all your favourite music on board. The graphics and system logic are designed to make the steering-wheel-mounted controls and Rotary Pad the perfect extensions for full control of all infotainment functions.

NAVI

Based on the latest-generation TomTom platform, the system is optimised for simple, intuitive use. The interactive contextual content makes the system the perfect guide on every trip, and the thoughtfully structured display of information makes everything clear at a glance. The navigation system includes 3 years of free maps update.

MYCAR

Vehicle status constantly monitored. Vital information relayed at all times, from technical data to servicing requirements. The graphics combine flat and three-dimensional elements to facilitate use and contribute to a gratifying, full-immersion experience of the world of Alfa Romeo.

EFFICIENT DRIVE

Efficient Drive is a useful aid for all types of driver, from the newly qualified to the most advanced. Intuitive graphics provide a qualitative analysis of driving style and offer useful information and tips for more efficient driving.

ALFA CONNECTED SERVICES

With Alfa Connected Services, the driver is always connected with his vehicle thanks to an embedded SIM, GPS and accelerometer. Remote assistance and control services are combined to guarantee increased safety on the road, complete peace of mind and easier vehicle care, all simply managed by the Alfa Connect Mobile App and by web portal www.alfaromeoconnect.eu

The smart way to use iPhone while driving. With Apple CarPlay on the main display board of Alfa Romeo Giulia, all the most useful apps can be viewed: street directions, making calls, sending and receiving messages, listening to music, all the while staying focused on the road.

androidauto

Designed for a totally safe driving experience whilst staying connected. With a user-friendly intuitive interface, integrated steering wheel commands and voice actions, Android Auto prevents unnecessary distractions while driving.

De värden för koldioxid och bränsleförbrukning som fastställts på grundval av den mättnings-/korrelationsmetod som hänvisar till NEDC-cykeln enligt förordning (EU) 2017/1152-1153. De värden för koldioxid och bränsleförbrukning som erhålls enligt gällande lagstiftning anges för att göra det möjligt att jämföra fordonsdata. Homologationsvärdena för koldioxidutsläppen och bränsleförbrukningen återspeglar eventuellt inte de faktiska värdena för koldioxid och bränsleförbrukning, som beror på många faktorer, t.ex. men inte begränsat till körsätt, rutt, väder och vägförhållanden, fordonets skick, användning och utrustning. Rapporterade koldioxidvärden och bränsleförbrukning avser den grundläggande versionen av fordonet och kan ändras under nästa konfigurationsfas beroende på typ av utrustning och/eller storleken på de däck som väljs.

Koldioxidvärdena och bränsleförbrukningen för det konfigurerade fordonet är inte definitiva och kan ändras till följd av förändringar i produktionscykeln; mer uppdaterade värden kommer att finnas tillgängliga hos den officiella återförsäljaren i det valda FCA-nätverket.
De officiella koldioxidvärdena och bränsleförbrukningen för det fordon som köps av kunden kommer alltid att ingå i de dokument som medföljer fordonet. I de fall där koldioxidvärden och bränsleförbrukning är relevanta för beräkning av skatter och kostnader kopplade till fordonet, bör det hänvisas till de tillämpliga lagarna i varje land.

Alfa Romeo recommends genuine lubricants

A close-up photograph of a carbon-fibre side mirror mounted on a blue Alfa Romeo Giulia. The mirror has a distinctive woven texture and is positioned in the foreground, reflecting the car's body panels. The background shows the car's door and window area, with the blue paint and metallic trim catching the light.

MAKE GIULIA YOUR OWN

Harmony, simplicity and irresistible appeal. Innovation, technology and sheer Alfa Romeo gusto. The Giulia is all this and much more. And with a world of original accessories to choose from, you really can make it the car of your dreams. If you're looking for that exclusive touch, why not enhance your Giulia's sporting personality with some carbon-fibre detailing? Or if you like your boot load organised to perfection, we have a range of storage containers and dividers for optimum use of load space. Choose your style, with original Alfa Romeo accessories.

ORIGINAL ACCESSORIES

The key covers also available in Red, Grey and White colour.

SERVICES

ALFA ROMEO CUSTOMER SERVICE

You can call Alfa Romeo free of charge on 00800 2532 0000* reachable from most European countries. We provide assistance 24 hours a day, 365 days a year for: • Towing or roadside assistance in the event of accident or breakdown • Information about our service network • Free passenger return (or continuation of journey) service • Payment of hotel expenses • Repaired car pick-up • Cash advance • Dispatch of spare parts. You can also contact

Alfa Romeo Customer Service for information about our models, services and Dealer Network, or to book a test drive. Whatever you need, we're here for you.

*Don't forget to check the cost with your operator when calling from abroad or from a mobile network.

FINANCE PACKAGES AND INSURANCE SERVICES

FCA Bank is the bank dedicated to motorists specialized in the car financing industry. Whether you are a private customer, professionals or run your own business, FCA BANK offers you the best and most flexible financial solutions to facilitate your forthcoming purchase of an Alfa Romeo so that you can drive it away. With FCA BANK you can combine your finance or leasing package with high value-added insurance services tailored to meet your requirements: fire and theft, collision and fully comprehensive insurance, extended warranty, and windscreen

or vehicle security marking. Moreover, FCA Bank proposes long-term rental as ideal solution for companies, professionals and private individuals who want to benefit from a new vehicle without the burden of ownership and the duties that this involves. However you choose to experience mobility, FCA BANK can satisfy your needs with financial and leasing packages combined with exclusive services. Visit www.fcabankgroup.com for full details.

KEEP YOUR ALFA ROMEO IN TIP-TOP CONDITION WITH MOPAR® VEHICLE PROTECTION

Mopar® Vehicle Protection knows that your vehicle needs different care at different points in its life, that is why we have designed a range of services tailored for you and your car by Mopar®, the Official Service Partner of Alfa Romeo. Our aim is to ensure that your driving experience will be always pleasant and reassuring, with your vehicle in a perfect shape just like the first day you bought it. Subscribe to one of the MVP plans directly when purchasing a Giulia and include it (if desired) in the FCA Bank financial offer or within subscription terms of each product. MVP guarantees that all service operations are performed with genuine parts by highly qualified and specialized technicians in authorized Giulia repair facilities, all over Europe. Select the service plan that suits your driving habits best.

MAXIMUM CARE: 100% PEACE OF MIND, WHEREVER YOUR JOURNEY TAKES YOU

The service plan built to cover all mechanical and electrical components, beyond the factory warranty. Subscribe to a MAXIMUM CARE program within 24 months after vehicle registration and continue benefitting from the expert care that only Alfa Romeo can offer you and is completely flexible. This plan offers you complete peace of mind throughout the period you desire to extend your warranty for.

EASY CARE: FIX THE PRICE OF YOUR REGULAR SERVICING

The plan with the right mix of expertise, value and convenience for you. This service plan is designed to be a simple way to budget your vehicle's servicing requirements and ensuring your vehicle never misses a vital service interval. Subscribe to the Easy Care plan before the first chargeable service and guarantee you get the maximum life out of your vehicle.
