CHEROKEE

NEW JEEP®

CHEROKEE

JEEP® - URBAN PERSPECTIVE

IT'S NOT JUST AN ATTITUDE. IT'S DNA.

Adventure does not take place only off -road. The new Cherokee can't wait to tackle all daily challenges, no matter what the terrain, in complete confidence and with unique Jeep® style.

LIFE IS ABOUT CHOICES.

CHEROKEE

LIFE IS ABOUT CHOICES.

NOT COMPROMISES.

The new Jeep® Cherokee embodies the spirit of those who seek freedom and adventure. Its urban attitude and off-road characteristics live side by side, offering a superior on-road performance and the legendary Jeep® capabilities.

The Jeep® Cherokee features two 4x4 systems: Jeep® Active Drive I and Jeep® Active Drive II, each with rear-axle disconnect and Selec-Terrain™ traction control system with four customized modes: Auto, Snow, Sport and Sand/Mud.

The rear-axle disconnect seamlessly switches between front and four-wheel drive when 4x4 traction is needed.

JEEP® ACTIVE DRIVE I: full-time active one-speed Rear Drive Module (RDM) with reduced weight, balanced torque distribution and brake traction control.
Available on Longitude, Limited and Overland.

JEEP® ACTIVE DRIVE II: full-time active two-speed Power Transfer Unit (PTU) with low range gear reduction and Hill-descent Control.
Available on Limited and Overland.

**AUTHENTIC CHARACTER
FROM ALL ANGLES.**

An unmistakable design. The new Cherokee will command road presence with bold new exteriors that are consistent with the Jeep® iconic styling cues. Complete with new fascias, lightweight hood and liftgate, full LED for headlights, daylight running lamps (DRL), fog lamps and tail lamps.

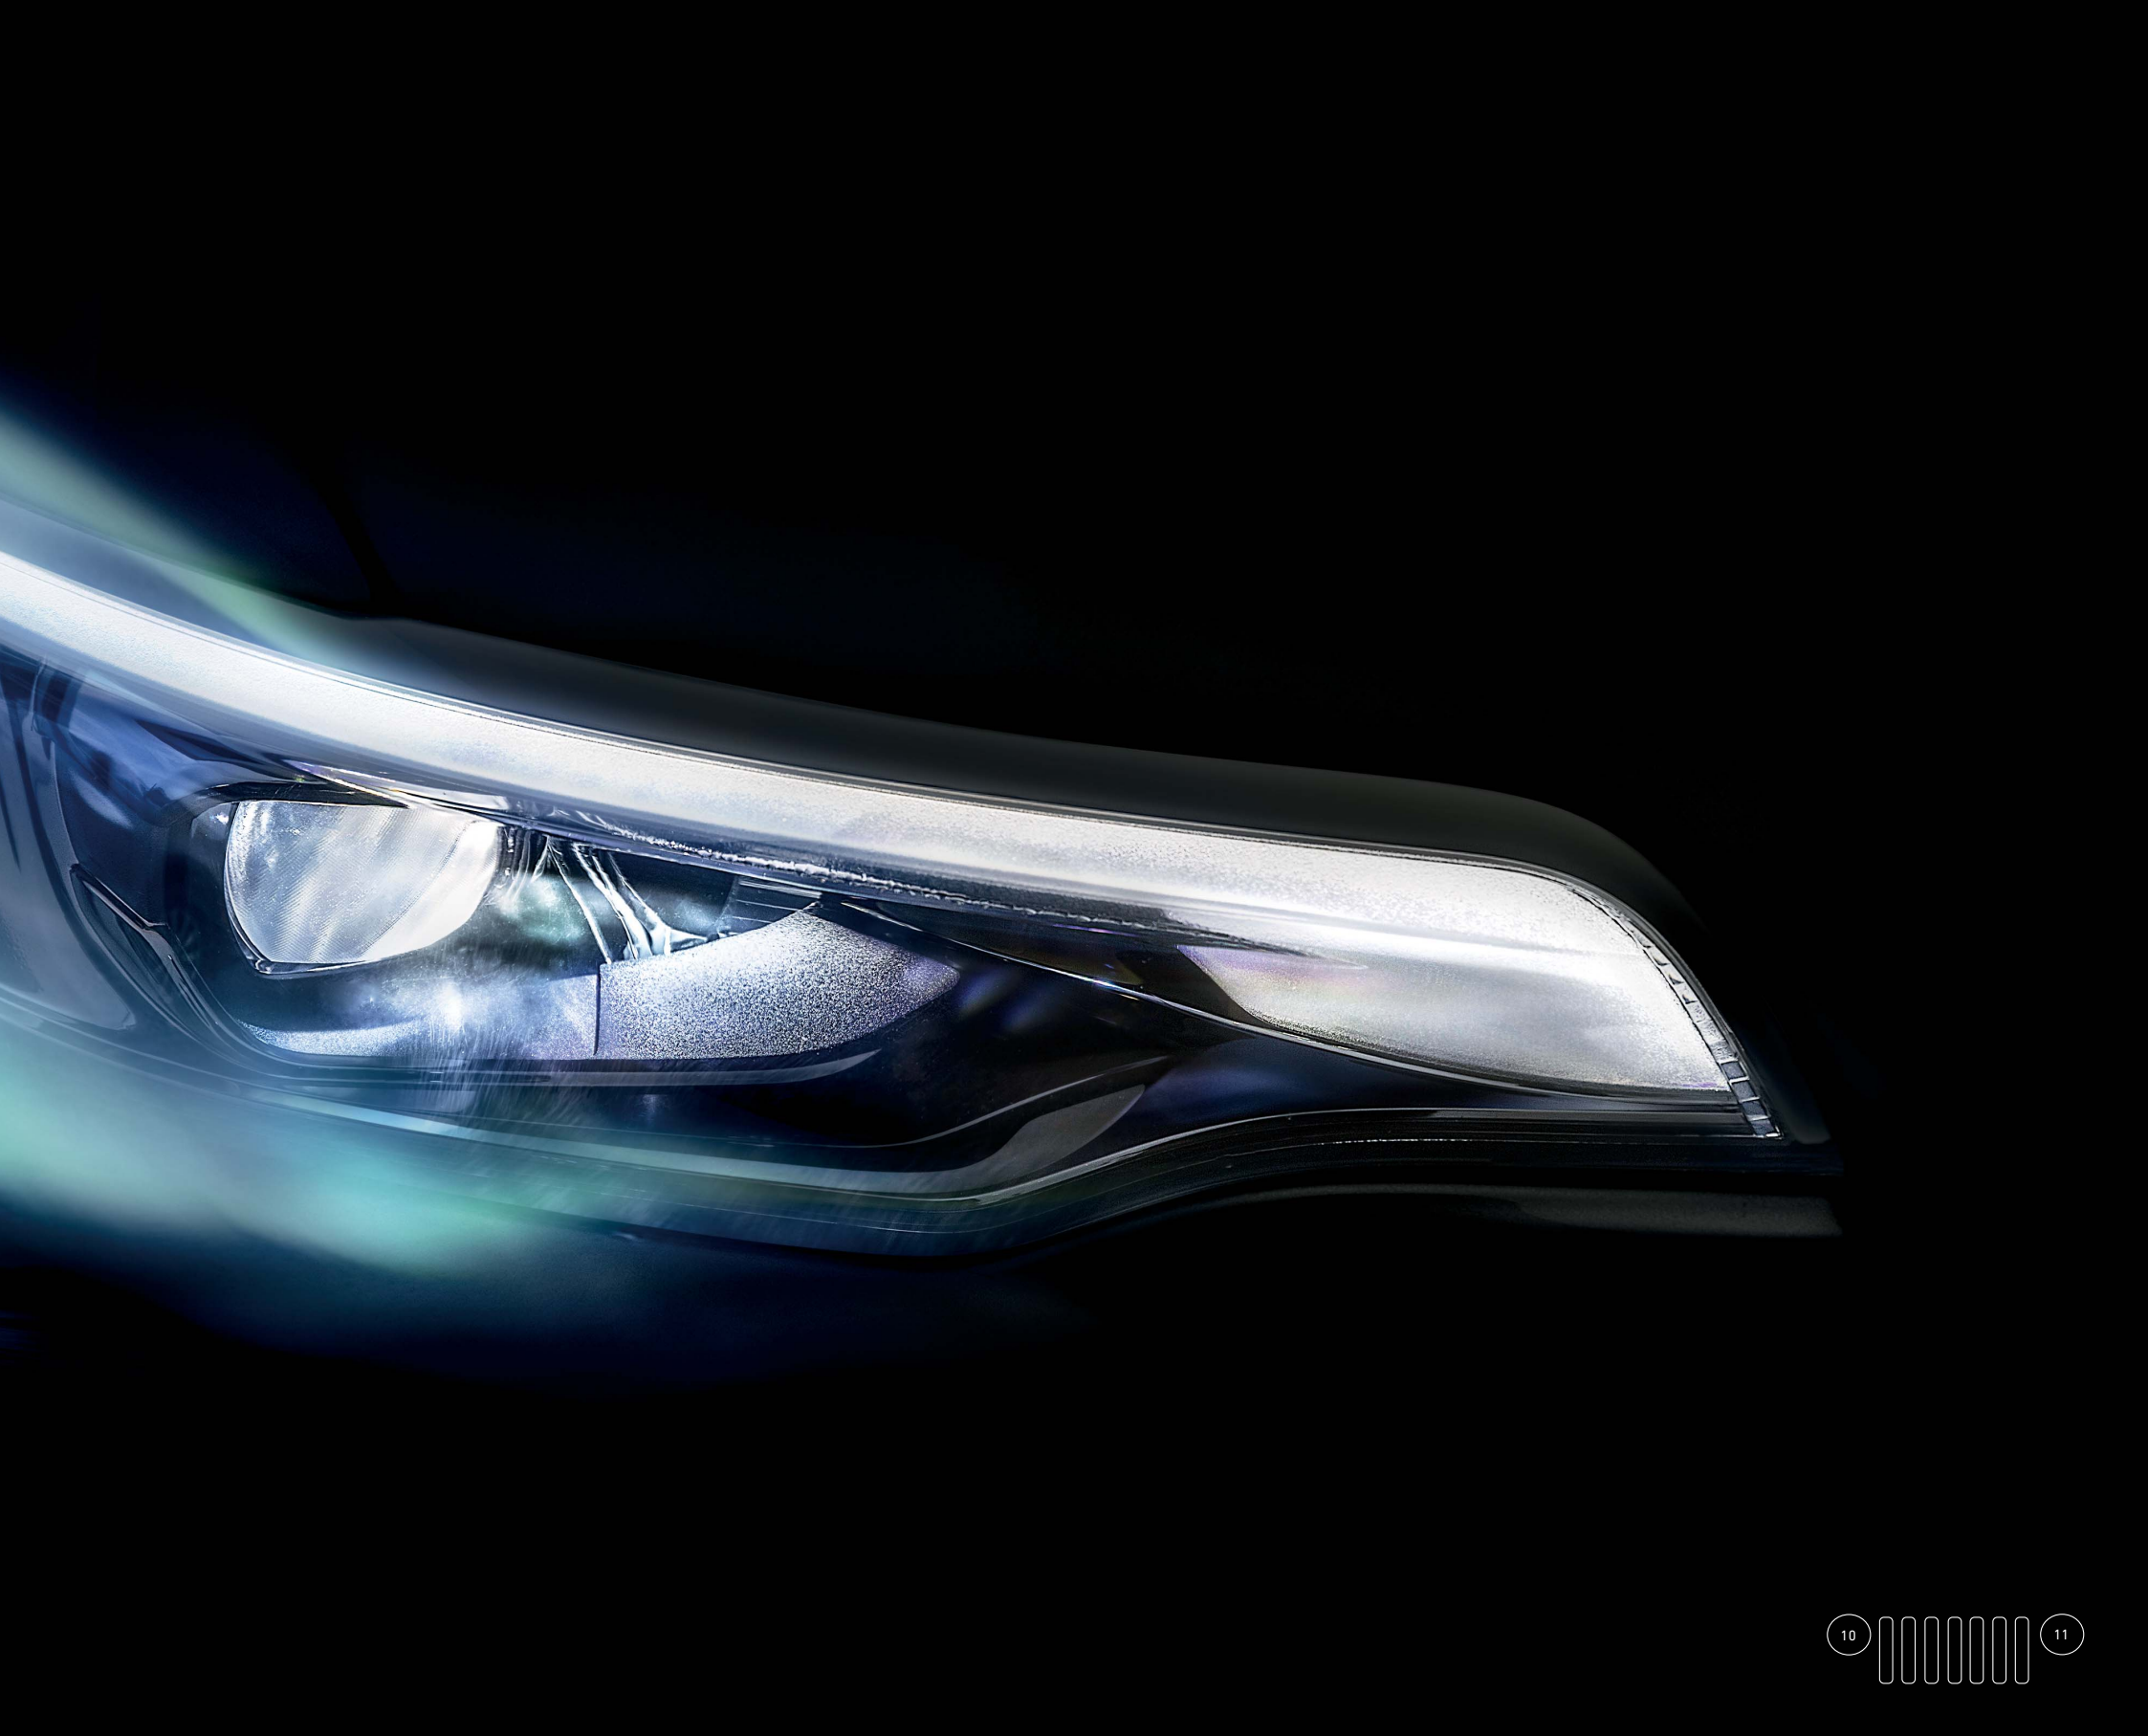

The new hands-free power liftgate is foot-activated and gives a streamlined appearance to the rear of the vehicle with the license plate moved higher to the centre.

The new Jeep® Cherokee offers a fresh exciting vibe, along with outstanding ride and handling characteristics.

A SIGNATURE LIGHT.

Advanced LED lighting technology plays a major role in the unmistakable exterior of the new Cherokee. New front LED projector headlights incorporate the signature DRLs, which have been refined as one fixture for a sleek modern look. The tail lamp features a signature red light – a thin homogeneous LED light strip that wraps individual stop and turn applications.

A JOURNEY INTO REFINEMENT.

Interiors have also been designed for superior style, comfort and functionality.

High-quality materials and precision craftsmanship feature throughout – in the soft-touch materials, leather seats and dashboard, high-gloss Piano Black details and Satin Chrome accents.

New steering-wheel integrated controls come as standard.

It's time to relish the driving experience now, along with the superior sound of the available Premium 9-speaker Alpine® Sound System featuring an 8" subwoofer and 506 watt amp.

CONNECT WITH YOUR WORLD.

The new Jeep® Cherokee features the latest Uconnect™ system with up to 8.4" high-resolution graphics and navigation system, pinch-to-zoom capability, and other easy-to-use features such as smartphone integration and the Drag'n'Drop System, which allows customization of the menu bar.

This way you can stay connected to your phone, entertainment, available navigation and much more, no matter what road you take.

Apple CarPlay™ enables iPhone users to access Apple Maps, messages, phone and Apple Music through Siri voice control or Uconnect™ touchscreen.

androidauto

Android Auto™ enables easy and safe access to hands-free voice control, Google Maps™ and Google Play Music™ via Uconnect™ touchscreen or steering-wheel controls.*

* Requires the Android Auto app on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher. Google, Google Play, Android Auto and other related marks are trademarks of Google LLC.

A large, empty theater with a stage and curved seating, illuminated with warm orange light. The theater has a modern, curved design with multiple tiers of dark seats facing a large, empty stage. The walls and ceiling are also curved and feature glowing orange light fixtures. The overall atmosphere is warm and spacious.

SO ROOMY THAT YOUR BAGGAGE CAN CHOOSE ITS OWN PLACE.

The new Jeep® Cherokee is the perfect travel companion thanks to the spacious and functional interior, even in the boot. The new Jeep® Cherokee is the perfect travel companion thanks to the spacious and functional interior, even in the boot. The ingenious 60/40 split-folding rear seats create even more room for larger objects, by choosing to fold the single, double or both. The rear cargo space now offers up to 570 liters of storage space that can easily accommodate golf clubs or groceries for everyday adventures. Access to all of this space is made easier thanks to the new hands-free power liftgate: simply swipe your foot below the rear bumper to release the liftgate so it can gently and automatically open.

TAKE CONTROL OF YOUR TRAIL.

The available 7-inch full-colour reconfigurable TFT instrument cluster allows the ease of a customized user experience, receiving information and vehicle feedback in a selected format such as turn-by-turn navigation, Selec-Terrain™ setting or safety features.

The available ParkSense Parallel/Perpendicular Park Assist System is displayed in the centre of the gauge cluster and guides the driver when parking. Specifically, it recognizes open parking spaces and with the push of a button, the guidance system steers the vehicle while directing the driver to shift gears and operate the brake and accelerator.

NATURAL INSTINCT.

Jeep

A close-up, high-contrast photograph of a person's eye, looking directly at the camera. The eye is dark and surrounded by thick, dark hair, possibly from a beard or mustache. The lighting is dramatic, highlighting the texture of the hair and the iris of the eye.

Over 75 active and passive safety and security features include Adaptive Cruise Control Plus, Blind Spot Monitoring with Rear Cross Path Detection, ParkSense Parallel/Perpendicular Park Assist, and ParkView rear backup camera. And now the new Jeep[®] Cherokee offers Forward Collision Warning Plus with Pedestrian Emergency Braking, Lane Departure Warning Plus, Advanced Brake Assist and Active Speed Limiter as standard on all trims. Self-preservation is an innate trait.

ADAPTIVE CRUISE CONTROL-PLUS

Using combined throttle and brake control, this available system automatically adjusts its speed to a pre-selected distance when it detects slower traffic ahead, helping ensure you keep a safe distance.

FULL-SPEED FORWARD COLLISION WARNING WITH PEDESTRIAN EMERGENCY BRAKING

This available system uses radar sensors to detect if the Cherokee is approaching another vehicle too rapidly, alerting the driver with an audible chime. Advanced Brake Assist increases brake pressure if it senses the driver is not braking hard enough.

DRIVE IN A SAFETY LANE.

LANE DEPARTURE WARNING PLUS

Tactile, visual and audible warnings are given should the vehicle drift outside of lane boundaries or if the driver's hands are off the steering wheel.

BLIND SPOT MONITORING AND REAR CROSS-PATH DETECTION

These systems monitor the space between the vehicle and other drivers. When a side or rear blind spot is encroached, the driver is notified via illuminated icons on sideview mirrors or an audible chime.

**THE PERFECT CHORD BETWEEN
POWER AND EXCELLENCE.**

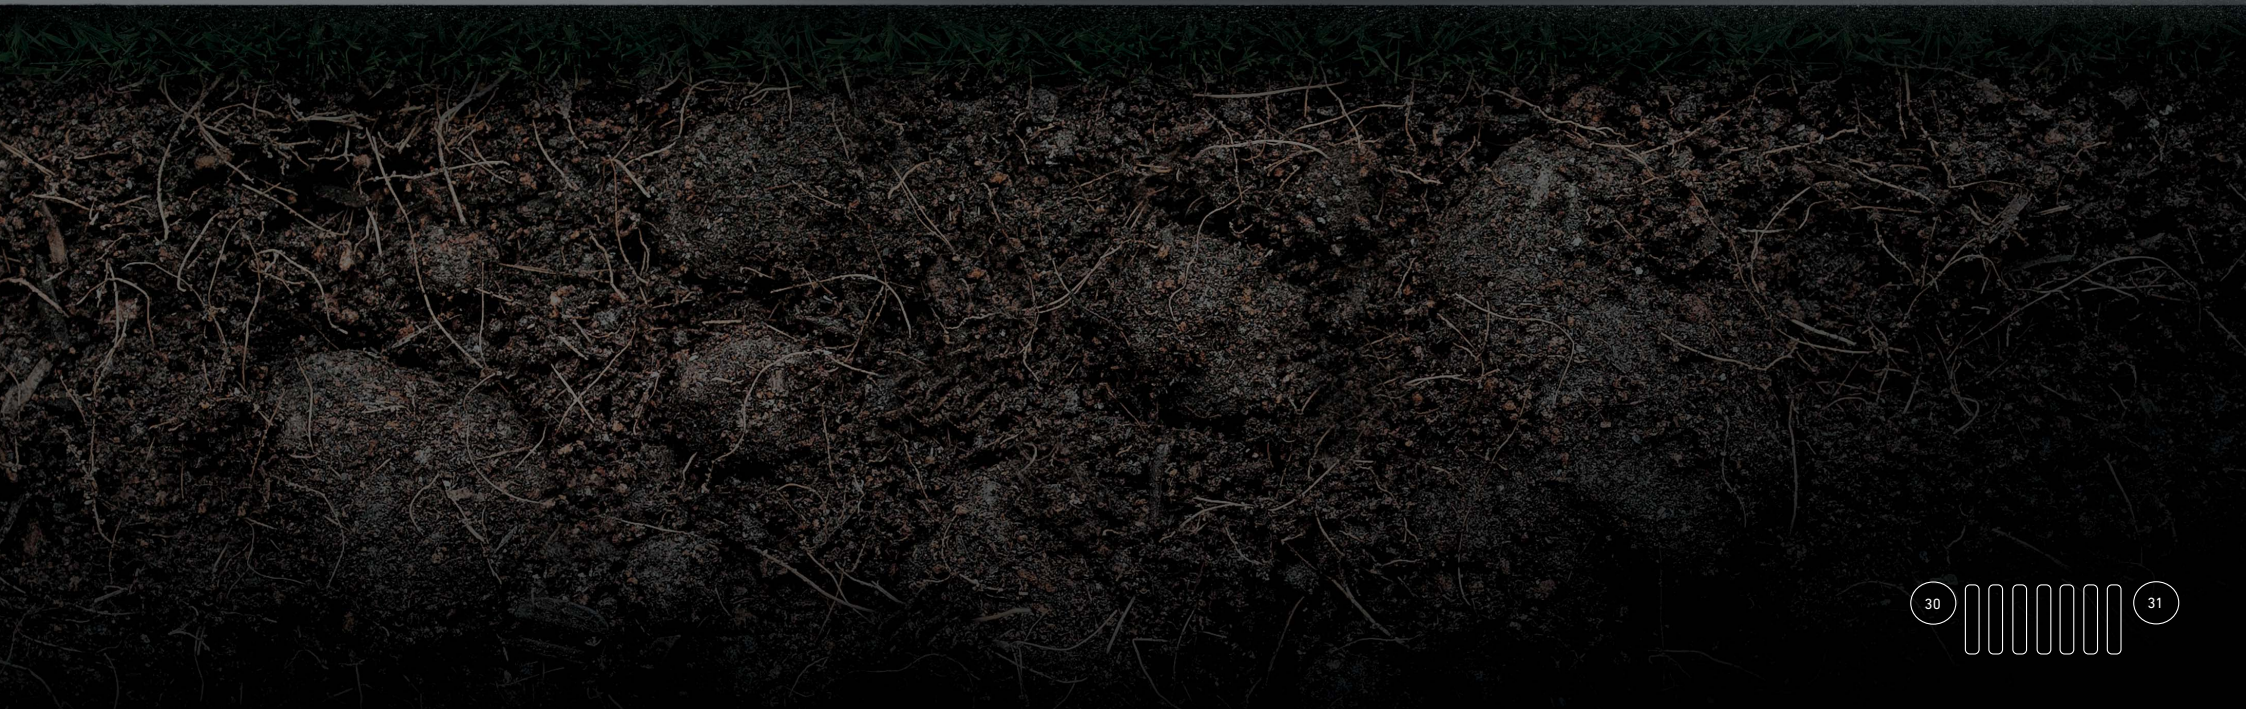

Efficient petrol and diesel engines, mated with the nine-speed automatic transmission:
a spectacular performance is assured.

The new **Petrol 2-litre turbocharged** engine with 270 HP, and the **2.2-litre Diesel**
models with 150 or 195 HP, all with Stop&Start technology, guarantee fuel
efficiency and superior driving experience on every terrain.

**AFTER ALL, ASPHALT
IS JUST THE SURFACE.**

The specification (B) indicates the value of CO₂ and fuel consumption determined on the basis of the measurement / correlation method referring to the NEDC cycle as per Regulation (EU) 2017/1152-1153. The CO₂ and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The homologation values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, the condition, use and equipment of the vehicle. The indicated value of CO₂ and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with the subsequent configuration depending on equipment selected and/or size of tires selected.

The indicated values of CO₂ and fuel consumption are not definitive and may evolve as a result of changes in the production cycle; more up-to-date values will be available at the selected official dealer of the FCA network. In any case, the official values of CO₂ and fuel consumption of the vehicle purchased by the customer will be provided with the documents accompanying the vehicle.

In cases where the values of CO₂ and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each country.
